

## Pop Up Blocker

The following directions highlight how to disable the pop up blocker in Internet Explorer. Please see the note in step 3 regarding browser-specific pop up blockers.

1.	Click on Tools.
2.	Select Turn Off Pop Up Blocker
3.	Note: If you have downloaded a tool bar from your internet service provider (i.e. AOL, Earthlink, etc) there may be an additional pop up blocker associated with your browser. These are specific to the tool bar provider and are not universal. Tip: Look at the tool bars below the menu to locate browser-specific blockers. There may also be an icon in the bottom right of the screen to disable the blocker.
4.	<b>End of Procedure.</b>

The screenshot shows the Microsoft Internet Explorer browser window. The title bar reads 'Current Learning - Microsoft Internet Explorer'. The menu bar includes File, Edit, View, Favorites, Tools, and Help. The Tools menu is open, showing options: Mail and News, Pop-up Blocker, Manage Add-ons..., Synchronize..., Windows Update, and Internet Options... The 'Pop-up Blocker' option is selected, and a sub-menu is displayed with 'Turn Off Pop-up Blocker' and 'Pop-up Blocker Settings...'. A white arrow points to 'Turn Off Pop-up Blocker'. The address bar shows 'https://hr.gmis.in.g...'. The main content area displays the 'PeopleSoft' logo and the heading 'Current Learning'. Below the heading, a paragraph states: 'Current Learning is a list of the activities you are enrolled in and curricula and certifications for which you are registered. You can view details, progress status, and schedules by clicking on the name of the activity or program.' Below this text is a table titled 'Current Activities'.

Name	Type	Status	Start Date
<a href="#">IoT - Information Resource Use Agreement Training</a>	Web-Based Training	In-Progress	--

Below the table is a section titled 'Current Learning Activities' with a blank space for additional information.
